Dear Grandparent of Saint Mary Academy Student(s):

The Board of Directors for Saint Mary Academy is very excited to be launching a new program entitled *Senior Monarchs*. The purpose of the program is to connect Grandparents of current and former students to the many opportunities at Saint Mary Academy. Opportunities for involvement include (but are not limited to) volunteering, sharing talents with the students and/or classes, helping with a special project, and the list goes on!

The first step in this new program is to find out about you! At the bottom of this letter is a short questionnaire that will help connect you with the school. Please complete this and return to the school. The second step is to connect the school with you. We are hoping to make these connections as soon as we can, so please anticipate a call or email from someone soon!

Saint Mary Academy is a wonderful community that will grow and become better in the years to come. We thank you for helping us reach out to those Senior Monarchs that want to become more involved. We look forward to working and having fun with you soon!

Yours in Christ,

Tony Hans
